

# RACHEL HUMBRECHT

*Graphic Designer*

*I've been working in the graphic design field for over 5 years with a wide variety of clients and project types. The majority of my design experience revolves around brand identity, graphic design for the web, and user experience design.*

## Overview:

I'm Rachel and I'm a graphic designer focused on brand identity and user experience design. I've been dabbling in artistic and design mediums for over a decade and worked with a wide variety of design teams and clients.

## Thought Space Designs Graphic/Web Designer · January 2012 - Present

Full service web & graphic design company working remotely with clients across the US. Provides full branding design services, as well as website design/development, fully custom plugin/app design/development, as well as brand consultation and artistic direction.

### My Role:

- Lead designer for projects including logo designs, website layouts, print products, promotional materials, and more.
- Front end web development jobs, including coding portions of custom WordPress themes, customizing CSS for WordPress themes, and managing websites (page/content creation) via a WordPress admin panel.
- Web master tasks like setting up WordPress plugins including WooCommerce, Ninja Forms, Yoast SEO, iThemes Security, and more.

## Short Hills Design Front End Web Designer · June 2014 - September 2016

Web development and marketing company focused on creating effective, modern websites for dental professionals. Specializes in customizing WordPress themes to meet the client's brand standards.

### My Role:

- Managing and updating websites for clients via the WordPress admin panel.
- Customizing WordPress themes for clients - including custom HTML and CSS, creating web graphics, and finding/configuring plugins to meet their needs.
- Entirely remote work where I had to manage my own projects and schedule. Client and team communication was done through email, Basecamp, and Slack.

## GO PHR Graphic Design Internship · August 2012 - October 2012

An online startup focused on providing easy access to medical records for both patients and medical professionals.

### My Role:

- Creating graphics and promotional materials for the startup company to expand and grow their online presence.
- The 3 month internship focused on developing an alternative logo for a side venture of the company, as well as creating graphics to brand and promote their Facebook page.
